As a result, the Company consolidates the financial results of SSE Holdings and reports a non-controlling interest representing the economic interest in SSE Holdings held by the other members of SSE Holdings. As of June 26, 2024 the Company owned 94.1% of SSE Holdings. Unless the context otherwise requires, "we," "us," "our," "Shake Shack," the "Company" and other similar references, refer to Shake Shack Inc. and, unless otherwise stated, all of its subsidiaries, including SSE Holdings.

The Company operates and licenses Shake Shack restaurants ("Shacks"), which serve burgers, chicken, hot dogs, crinkle cut fries, shakes, frozen custard, beer, wine and more. As of June 26, 2024, there were 547 Shacks in operation system-wide, of which 311 were Company-operated Shacks and 236 were licensed Shacks.

**NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

---

**Basis of Presentation**

The accompanying unaudited Condensed Consolidated Financial Statements include the accounts of Shake Shack Inc. and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. These interim Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and on a basis consistent in all material respects with the accounting policies described in its Annual Report on Form 10-K for the fiscal year ended December 27, 2023 ("2023 Form 10-K"). Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. These interim Condensed Consolidated Financial Statements should be read in conjunction with the consolidated financial statements and related notes thereto included in its 2023 Form 10-K. In the Company's opinion, all adjustments, which are normal and recurring in nature, necessary for a fair presentation of the financial position and results of operation have been included. Operating results for interim periods are not necessarily indicative of the results that may be expected for a full fiscal year.

SSE Holdings is considered a variable interest entity. Shake Shack Inc. is the primary beneficiary as the Company has the majority economic interest in SSE Holdings and, as the sole managing member, has decision making authority that significantly affects the economic performance of the entity, while the limited partners have no substantive kick-out or participating rights. As a result, the Company consolidates SSE Holdings. The assets and liabilities of SSE Holdings represent substantially all of the Company's consolidated assets and liabilities with the exception of certain deferred taxes and liabilities under the Tax Receivable Agreement. As of June 26, 2024 and December 27, 2023, the net assets of SSE Holdings were \$409,417 and \$388,250, respectively. The assets of SSE Holdings are subject to certain restrictions in SSE Holdings' revolving credit agreement.

**Fiscal Year**

The Company operates on a 52/53 week fiscal year ending on the last Wednesday of December. Fiscal 2024 contains 52 weeks and ends on December 25, 2024. Fiscal 2023 contained 52 weeks and ended on December 27, 2023. Unless otherwise stated, references to years in this report relate to fiscal years.

**Use of Estimates**

The preparation of these Condensed Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of sales and expenses during the reporting period. Actual results could differ from those estimates.

## Recently Issued Accounting Pronouncements

The Company reviewed all recently issued accounting pronouncements and concluded that they were not applicable or not expected to have a significant impact on its Condensed Consolidated Financial Statements.

## NOTE 3: REVENUE

---

### Revenue Recognition

#### **Shack Sales**

Revenue from Shack sales is recognized when payment is tendered at the point of sale, net of discounts as the performance obligation has been satisfied at that time. Sales tax collected from guests is excluded from Shack sales and the obligation is included in Other current liabilities on the Condensed Consolidated Balance Sheets until the taxes are remitted to the appropriate taxing authorities.

Delivery services are fulfilled by third-party delivery partners whether ordered through the Shack app, website (collectively, "Company-owned platforms") or through third-party delivery platforms. Revenue from orders through Company-owned platforms includes delivery fees and is recognized when the delivery partner transfers the order to the guest as the Company controls the delivery. For these sales, the Company receives payment directly from the guest at the time of sale. Revenue from orders through third-party delivery platforms is recognized when the order is transferred to the third-party delivery partner and excludes delivery fees collected by the delivery partner as the Company does not control the delivery. The Company receives payment from the delivery partner subsequent to the transfer of the order and the payment terms are short-term in nature. For all delivery sales, the Company is considered the principal and recognizes revenue on a gross basis.

The Company sells gift cards which do not have expiration dates. Revenue from gift cards is recognized when gift cards are redeemed by the guest or, in the event a gift card is not expected to be redeemed, in proportion to actual redemptions of gift cards ("gift card breakage"). The gift card breakage rate is determined from historical gift card redemption patterns. Gift card breakage income for the thirteen weeks ended June 26, 2024 and June 28, 2023 was \$110 and \$72, respectively. Gift card breakage income for the twenty-six weeks ended June 26, 2024 and June 28, 2023 was \$244 and \$178, respectively. Gift card breakage income is included in Shack sales on the Condensed Consolidated Statements of Income.

#### **Licensing Revenue**

Licensing revenue includes initial territory fees, Shack opening fees and ongoing sales-based royalty fees from licensed Shacks. Generally, the licenses granted to develop, open and operate each Shack in a specified territory are the predominant good or service transferred to the licensee and represent distinct performance obligations. Ancillary promised services, such as training and assistance during the initial opening of a Shack, are typically combined with the license and considered one performance obligation per Shack.

The Company determines the transaction price for each contract, which requires judgement as the transaction price is comprised of the initial territory fee and an estimate of the total Shack opening fees based on the estimated number of Shacks the Company expects the licensee to open. The transaction price is then allocated equally to each Shack expected to open. The performance obligation is satisfied over time, starting when a Shack opens through the end of the license term for the related Shack, therefore revenue is recognized on a straight-line basis over the license term.

Generally, payment for the initial territory fee is received upon execution of the license agreement and payment for the Shack opening fees is received either in advance of or upon opening the related Shack. These payments are initially deferred and recognized in revenue as the performance obligations are satisfied. Revenue from sales-based royalties is recognized as the related sales occur.

Revenue disaggregated by type was as follows:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023	June 26 2024	June 28 2023
Shack sales	\$ 305,480	\$ 261,810	\$ 586,032	\$ 506,064
Licensing revenue:				
Sales-based royalties	10,624	9,712	20,257	18,490

<b>Total revenue</b>	<b>\$ 316,496</b>	<b>\$ 271,805</b>	<b>\$ 607,000</b>	<b>\$ 525,083</b>

The aggregate amount of the transaction price allocated to performance obligations that were unsatisfied or partially unsatisfied as of June 26, 2024 was \$22,978. The Company expects to recognize this amount as revenue over a long-term period, as the license term for each Shack ranges from five to twenty years. This amount excludes any variable consideration related to sales-based royalties.

## NOTE 6: DEBT

### Convertible Notes

The Company's \$250,000 aggregate principal amount of 0% Convertible Senior Notes due 2028 ("Convertible Notes") will mature on March 1, 2028, unless earlier converted, redeemed or repurchased in certain circumstances. Upon conversion, the Company pays or delivers, as the case may be, cash, shares of Class A common stock or a combination of cash and shares of Class A common stock, at the Company's election.

The Convertible Notes are convertible at the option of the holders at any time prior to the close of business on the business day immediately preceding December 1, 2027, only under the following circumstances: (1) during any fiscal quarter commencing after the fiscal quarter ending on June 30, 2021 (and only during such fiscal quarter), if the last reported sale price of the Company's Class A common stock, par value \$0.001 per share, for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on, and including, the last trading day of the immediately preceding fiscal quarter is greater than or equal to 130% of the conversion price for the Convertible Notes on each applicable trading day; (2) during the five business day period after any ten consecutive trading day period (the "measurement period") in which the trading price (as defined in the Indenture) per one thousand dollar principal amount of the Convertible Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of Class A common stock and the conversion rate for the Convertible Notes on each such trading day; (3) if the Company calls such Convertible Notes for redemption, at any time prior to the close of business on the scheduled trading day immediately preceding the redemption date, but only with respect to the Convertible Notes called (or deemed called) for redemption; and (4) upon the occurrence of specified corporate events as set forth in the Indenture. On or after December 1, 2027, until the close of business on the second scheduled trading day immediately preceding the maturity date, holders of the Convertible Notes may convert all or any portion of their Convertible Notes at any time, regardless of the foregoing circumstances.

The Convertible Notes had an initial conversion rate of 5.8679 shares of Class A common stock per one thousand dollar principal amount of Convertible Notes, which is equivalent to an initial conversion price of approximately \$170.42 per share of Class A common stock. The fair value of the Convertible Notes was approximately \$214,375 and \$205,000, respectively, as of June 26, 2024 and December 27, 2023, based on external pricing data, including available quoted market prices of these instruments, and consideration of comparable debt instruments with similar interest rates and trading frequency, among other factors, and is classified as a Level 2 measurement within the fair value hierarchy.

### Revolving Credit Facility

The Company maintains a revolving credit facility agreement ("Revolving Credit Facility") which permits borrowings up to \$50,000 with the ability to increase available borrowings up to an additional \$100,000, subject to satisfaction of certain conditions. The Revolving Credit Facility has a maturity date of March 5, 2026.

In June 2023, the Company entered into the fourth amendment to the Revolving Credit Facility ("Fourth Amendment"), which, among other things, modified the benchmark interest rate to either: (i) the base rate plus applicable margin ranging from 0.0% to 1.5% or (ii) the Secured Overnight Financing Rate ("SOFR") plus applicable margin ranging from 1.0% to 2.5%, in each case

dependent upon the net lease adjusted leverage ratio. As of June 26, 2024 and December 27, 2023, no amounts were outstanding under the Revolving Credit Facility.

The obligations under the Revolving Credit Facility are secured by a first-priority security interest in substantially all of the assets of SSE Holdings and the guarantors. The obligations under the Revolving Credit Facility are guaranteed by each of SSE Holdings' direct and indirect subsidiaries, with certain exceptions. The Revolving Credit Facility requires the Company to comply with maximum net lease adjusted leverage and minimum fixed charge coverage ratios, as well as other customary affirmative and negative covenants. As of June 26, 2024, the Company was in compliance with all covenants.

The Revolving Credit Facility also permits the issuance of letters of credit upon our request of up to \$15,000. As of June 26, 2024 and December 27, 2023, the Company had outstanding letters of credit of \$3,310 and \$3,147, respectively, in connection with the Revolving Credit Facility.

NOTE 7: LEASES

Nature of Leases

Shake Shack currently leases all of its Company-operated Shacks, the home office and certain equipment under various non-cancelable lease agreements that expire on various dates through 2045. The Company evaluates contracts entered into to determine whether the contract involves the use of property or equipment, which is either explicitly or implicitly identified in the contract. The Company evaluates whether it controls the use of the asset, which is determined by assessing whether substantially all economic benefit from the use of the asset is obtained, and whether the Company has the right to direct the use of the asset. If these criteria are met, the Company has identified a lease within the contract, and therefore a right of use asset and lease liability are recorded on the Condensed Consolidated Balance Sheets. Upon possession of a leased asset, the Company determines whether the lease is an operating or finance lease. All of the Company's real estate leases are classified as operating leases and most equipment leases are classified as finance leases.

Generally, real estate leases have initial terms ranging from 10 to 15 years and typically include two five-year renewal options. Renewal options are generally not recognized as part of the right-of-use assets and lease liabilities as it is not reasonably certain at commencement date that the Company would exercise the renewal options. Real estate leases typically contain fixed minimum rent payments and/or contingent rent payments which are based upon sales in excess of specified thresholds. When the achievement of such sales thresholds are deemed to be probable, contingent rent is accrued in proportion to the sales recognized during the period.

For operating leases, fixed lease payments are recognized as operating lease costs on a straight-line basis over the lease term on the Condensed Consolidated Statements of Income in the following line items. Lease expense incurred before a Shack opens is recorded in Pre-opening costs. Once a Company-operated Shack opens, the straight-line lease expense and contingent rent, if applicable, are recorded in Occupancy and related expenses. Many of these leases also require the Company to pay real estate taxes, common area maintenance costs and other occupancy costs which are included in Occupancy and related expenses. Finance leases are recognized in depreciation expense on a straight-line basis over the remaining lease term, along with recognition of interest expense associated with accretion of the lease liability.

For both operating and finance leases that contain lease and non-lease components, the components are combined and accounted for as a single lease component. Variable lease costs for both operating and finance leases, if any, are recognized as incurred. Leases with a term of 12 months or less are deemed short-term and are not recognized on the Condensed Consolidated Balance Sheets. Fixed lease payments for short-term leases are recognized on a straight-line basis over the lease term.

The Company calculates operating lease assets and lease liabilities as the present value of fixed lease payments over the reasonably certain lease term beginning at the commencement date. The Company uses its incremental borrowing rate ("IBR") in determining the present value of future lease payments as there are no explicit rates provided in the leases. The IBR used to measure the lease liability is derived from the average of the yield curves obtained from using the notching method and the recovery rate method. The most significant assumption in calculating the IBR is the Company's credit rating and is subject to judgment. The credit rating used to develop the IBR is determined by utilizing the credit ratings of other public companies with similar financial information as SSE Holdings.

The Company expends cash for leasehold improvements to build out and equip leased properties. Generally, a portion of the leasehold improvements and building costs are reimbursed by the landlords through landlord incentives pursuant to agreed-upon terms in the lease agreements. Landlord incentives usually take the form of cash, full or partial credits against future minimum or contingent rents otherwise payable by the Company, or a combination thereof. In most cases, landlord incentives are received after the Company takes possession of the property and as milestones are met during the construction of the property. The Company includes these amounts in the measurement of the initial operating lease liability, and lease asset.

A summary of operating and finance right-of-use assets and lease liabilities were as follows:

## NOTE 8: NON-CONTROLLING INTERESTS

Shake Shack is the primary beneficiary and sole managing member of SSE Holdings and, as a result, consolidates the financial results of SSE Holdings. The Company reports a non-controlling interest representing the economic interest held by the other members of SSE Holdings. The Third Amended and Restated Limited Liability Company Agreement, as further amended, (the "LLC Agreement") of SSE Holdings provides that holders of SSE Holdings, LLC membership interests ("LLC Interests") may,

from time to time, require SSE Holdings to redeem all or a portion of their LLC Interests for newly-issued shares of Class A common stock on a one-for-one basis. In connection with any redemption or exchange, the Company will receive a corresponding number of LLC Interests, increasing the total ownership interest in SSE Holdings. Changes in the ownership interest in SSE Holdings while the Company retains its controlling interest in SSE Holdings will be accounted for as equity transactions. As such, future redemptions or direct exchanges of LLC Interests in SSE Holdings by the other members of SSE Holdings will result in a change in ownership and reduce the amount recorded as non-controlling interest and increase additional paid-in capital.

The following table summarizes the ownership interest in SSE Holdings:

	June 26, 2024		December 27, 2023	
	LLC Interests	Ownership %	LLC Interests	Ownership %
Number of LLC Interests held by Shake Shack Inc.	39,966,973	94.1 %	39,474,315	93.3 %

## NOTE 10: INCOME TAXES

Shake Shack is the sole managing member of SSE Holdings and, as a result, consolidates the financial results of SSE Holdings. SSE Holdings is treated as a partnership for U.S. federal and most applicable state and local income tax purposes. As a partnership, SSE Holdings is not subject to U.S. federal and certain state and local income taxes. Any taxable income or loss generated by SSE Holdings is passed through to and included in the taxable income or loss of its members, including the Company, on a pro rata basis. The Company is subject to U.S. federal income taxes, in addition to state and local income taxes with respect to its allocable share of any taxable income or loss of SSE Holdings, as well as any stand-alone income or loss generated by Shake Shack Inc. The Company is also subject to withholding taxes in foreign jurisdictions.

### Effective Income Tax Rates

The following table presents the Company's effective income tax rates:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023	June 26 2024	June 28 2023
Effective income tax rates	23.4 %	4.6 %	22.7 %	17.8 %

The increases in the effective income tax rates for the thirteen and twenty-six weeks ended June 26, 2024 were primarily driven by increases in pre-tax income. Additionally, increases in the Company's ownership interest in SSE Holdings for the thirteen and twenty-six weeks ended June 26, 2024 increase its share of the taxable income of SSE Holdings.

The Company's weighted average ownership interest in SSE Holdings was as follows:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023	June 26 2024	June 28 2023
Shake Shack's weighted average ownership percentages	93.7 %	93.3 %	93.5 %	93.3 %

### Deferred Tax Assets and Liabilities

The Company acquires LLC Interests in connection with the redemption of LLC Interests and activity relating to its stock compensation plan and recognizes deferred tax assets associated with the basis difference in its investment in SSE Holdings upon acquisition of these LLC Interests.

The following table summarizes the LLC Interests acquired by the Company:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023	June 26 2024	June 28 2023
LLC Interests activity under the Company's stock compensation plan	18,514	44,341	146,081	139,248
LLC Interests activity from redemptions of LLC Interests	313,077	—	346,577	25,000
<b>Total LLC Interests acquired by the Company</b>	<b>331,591</b>	<b>44,341</b>	<b>492,658</b>	<b>164,248</b>

Deferred tax assets related to the basis difference in the Company's investment in SSE Holdings were as follows:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023	June 26 2024	June 28 2023
Deferred tax assets recognized upon acquisition of LLC Interests	\$ 7,263	\$ (251)	\$ 10,577	\$ 573
			June 26 2024	December 27 2023
Total deferred tax assets related to the acquisition of LLC Interests			\$ 101,746	\$ 90,419

The Company also recognizes deferred tax assets related to additional tax basis increases generated from expected future payments under the Tax Receivable Agreement and related deductions for imputed interest on such payments. Refer to "Tax Receivable Agreement," herein for additional information.

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023	June 26 2024	June 28 2023
Deferred tax assets recognized under the Tax Receivable Agreement	\$ 2,760	\$ —	\$ 3,063	\$ 129

The Company evaluates the realizability of its deferred tax assets on a quarterly basis and establishes valuation allowances when it is more likely than not that all or a portion of a deferred tax asset may not be realized. As of June 26, 2024, the Company concluded, based on the weight of all available positive and negative evidence, that all of its deferred tax assets (except for those deferred tax assets relating to certain state tax credits and net operating losses) are more likely than not to be realized. As such, no additional valuation allowance was recognized.

## Tax Receivable Agreement

On February 4, 2015, the Company entered into a tax receivable agreement with certain of the then-existing members of SSE Holdings (the "Tax Receivable Agreement") that provides for the payment by the Company of 85% of the amount of any tax benefits that are actually realized, or in some cases are deemed to realize, as a result of (i) increases in the Company's share of the tax basis in the net assets of SSE Holdings resulting from any redemptions or exchanges of LLC Interests, (ii) tax basis increases attributable to payments made under the Tax Receivable Agreement, and (iii) deductions attributable to imputed interest pursuant to the Tax Receivable Agreement (the "TRA Payments"). The Company expects to benefit from the remaining 15% of any tax benefits that may actually realize. The TRA Payments are not conditioned upon any continued ownership interest in SSE Holdings or the Company. The rights of each member of SSE Holdings that is a party to the Tax Receivable Agreement, are assignable to transferees of their respective LLC Interests.

Pursuant to the Company's election under Section 754 of the Internal Revenue Code (the "Code"), the Company expects to obtain an increase in its share of the tax basis in the net assets of SSE Holdings when LLC Interests are redeemed or exchanged by the other members of SSE Holdings. The Company plans to make an election under Section 754 of the Code for each taxable year in which a redemption or exchange of LLC Interest occurs. The Company intends to treat any redemptions and exchanges of LLC Interests as direct purchases of LLC Interests for U.S. federal income tax purposes. These increases in tax basis may reduce the amounts that would otherwise be paid in the future to various tax authorities. They may also decrease gains (or increase losses) on future dispositions of certain capital assets to the extent tax basis is allocated to those capital assets.

Amounts payable under the Tax Receivable Agreement are contingent upon, among other things, (i) generation of future taxable income over the term of the Tax Receivable Agreement and (ii) future changes in tax laws. There were no transactions subject to the Tax Receivable Agreement for which the Company did not recognize the related liability, as the Company concluded that it would have sufficient future taxable income to utilize all of the related tax benefits generated by all transactions that occurred during the twenty-six weeks ended June 26, 2024 and June 28, 2023.

A summary of obligations under the Tax Receivable Agreement were as follows:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023	June 26 2024	June 28 2023
Additional liabilities recognized under the Tax Receivable Agreement	\$ 10,150	\$ (4)	\$ 11,265	\$ 468
			June 26 2024	December 27 2023
Total obligations under the Tax Receivable Agreement	\$		246,878	\$ 235,613

During the twenty-six weeks ended June 26, 2024 and June 28, 2023, inclusive of interest, no payments were made to the parties to the Tax Receivable Agreement.

## NOTE 11: EARNINGS (LOSS) PER SHARE

Basic earnings per share of Class A common stock is computed by dividing Net income attributable to Shake Shack Inc. by the weighted average number of shares of Class A common stock outstanding during the period. Diluted earnings per share of Class A common stock is computed by dividing Net income attributable to Shake Shack Inc. by the weighted average number of shares of Class A common stock outstanding, adjusted to give effect to potentially dilutive securities.

The following table sets forth reconciliations of the numerators and denominators used to compute basic and diluted earnings per share of Class A common stock (in thousands, except per share amounts):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023	June 26 2024	June 28 2023
Numerator:				
Net income attributable to Shake Shack Inc.—basic	\$ 9,668	\$ 6,948	\$ 11,708	\$ 5,414
Reallocation of net income attributable to non-controlling interests from the assumed conversion of Class B shares	—	275	—	187
Net income attributable to Shake Shack Inc.—diluted	\$ 9,668	\$ 7,223	\$ 11,708	\$ 5,601
Denominator:				
Weighted average shares of Class A common stock outstanding—basic	39,750	39,416	39,632	39,374
Effect of dilutive securities:				
Stock options	60	79	65	79
Performance stock units	63	6	39	11
Restricted stock units	140	73	166	58
Convertible Notes	1,467	1,467	1,467	1,467
Shares of Class B common stock	—	2,845	—	2,848
Weighted average shares of Class A common stock outstanding—diluted	41,480	43,886	41,369	43,837
Earnings per share of Class A common stock—basic	\$ 0.24	\$ 0.18	\$ 0.30	\$ 0.14
Earnings per share of Class A common stock—diluted	\$ 0.23	\$ 0.16	\$ 0.28	\$ 0.13

The effect of potential share settlement of the Convertible Notes outstanding for the period is included as potentially dilutive shares of Class A common stock under application of the if-converted method in the computation of diluted earnings per share, except when the effect would be anti-dilutive. Refer to Note 6, Debt, for additional information.

Shares of Class B common stock do not share in the earnings or losses of Shake Shack and are therefore not participating securities. As such, separate presentation of basic and diluted earnings per share of Class B common stock under the two-class method has not been presented. However, shares of Class B common stock outstanding for the period are considered potentially dilutive shares of Class A common stock under application of the if-converted method and are included in the computation of diluted earnings per share, except when the effect would be anti-dilutive.

The following table presents potentially dilutive securities excluded from the computations of diluted earnings per share of Class A common stock:

	Thirteen Weeks Ended				Twenty-Six Weeks Ended			
	June 26 2024		June 28 2023		June 26 2024		June 28 2023	
Performance stock units	121,131	(1)	109,749	(1)	121,131	(1)	109,749	(1)
Shares of Class B common stock	2,487,936	(2)	—		2,487,936	(2)	—	

- (1) Number of securities outstanding at the end of the period that were excluded from the computation of diluted earnings per share of Class A common stock because the performance conditions associated with these awards were not met assuming the end of the reporting period was the end of the performance period.
- (2) Number of securities outstanding at the end of the period that were excluded from the computation of diluted earnings per share of Class A common stock because the effect would have been anti-dilutive.

---

Shake Shack serves modern, fun and elevated versions of American classics using only premium ingredients. We are known for our made-to-order 100% Angus beef burgers, crispy chicken, hand-spun milkshakes, house-made lemonades, beer, wine, and more. With our fine-dining roots and a commitment to crafting uplifting experiences, Shake Shack has become a cult-brand and created a new category, fine-casual.

Our mission is to *Stand For Something Good* in all aspects of our business, including the talented team we hire and train, the premium ingredients making up our menu, our community engagement and the design of our Shacks. *Stand For Something Good* is a call to action for all of our stakeholders — our team, guests, communities, suppliers and investors — and we actively invite them all to share in this philosophy with us. This commitment drives our integration into the local communities in which we operate and fosters a deep and lasting connection with our guests.

The following definitions apply to these terms as used herein:

"Average weekly sales" is calculated by dividing total Shack sales by the number of operating weeks for all Shacks in operation during the period. For Shacks that are not open for the entire period, fractional adjustments are made to the number of operating weeks open such that it corresponds to the period of associated sales.

"Same-Shack sales" represents Shack sales for the comparable Shack base, which is defined as the number of Company-operated Shacks open for 24 full fiscal months or longer. For consecutive days that Shacks were temporarily closed, the comparative period was also adjusted.

"System-wide sales" is an operating measure and consists of sales from Company-operated Shacks and licensed Shacks. The Company does not recognize the sales from licensed Shacks as revenue. Of these amounts, revenue is limited to licensing revenue based on a percentage of sales from licensed Shacks, as well as certain up-front fees, such as territory fees and opening fees.

### Key Operating Metrics

Same-Shack sales for the thirteen weeks ended June 26, 2024 increased 4.0% compared to the same period last year, driven by a 4.8% increase in price mix partially offset by a 0.8% decline in guest traffic. Same-Shack sales for the twenty-six weeks ended June 26, 2024 increased 2.8% compared to the same period last year, driven by a 4.2% increase in price mix partially offset by a 1.4% decline in guest traffic. For the purpose of calculating same-Shack sales for the thirteen and twenty-six weeks ended June 26, 2024, Shack sales for 228 Shacks were included in the comparable Shack base.

Average weekly sales were \$77,000 and \$75,000, respectively, for the thirteen and twenty-six weeks ended June 26, 2024, which were flat compared to the same periods last year, primarily driven by higher menu prices, partially offset by a decline in guest traffic and menu mix.

System-wide sales for the thirteen weeks ended June 26, 2024 increased 13.5% to \$483.7 million compared to the same period last year. System-wide sales for the twenty-six weeks ended June 26, 2024 increased 12.9% to \$927.0 million compared to the same period last year.

Digital sales for the thirteen weeks ended June 26, 2024 increased 20.9% to \$105.1 million compared to the same period last year. Digital sales for the twenty-six weeks ended June 26, 2024 increased 18.1% to \$208.3 million compared to the same

period last year. Digital sales includes orders placed on the Shake Shack app, website and third-party delivery platforms, which represented 34.4% and 35.5%, respectively, of Shack sales during the thirteen and twenty-six weeks ended June 26, 2024.

Pre-opening costs can fluctuate significantly from period to period, based on the number and timing of Company-operated Shack openings and the specific pre-opening costs incurred for each Company-operated Shack. Additionally, Company-operated Shack openings in new geographic markets may initially experience higher pre-opening costs than our established geographic markets, such as the New York City metropolitan area, where we have greater economies of scale and incur lower travel and lodging costs for our training team.

## NON-GAAP FINANCIAL MEASURES

---

To supplement the Condensed Consolidated Financial Statements, which are prepared and presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"), we use the following non-GAAP financial measures: Restaurant-level profit, Restaurant-level profit margin, EBITDA, adjusted EBITDA, adjusted EBITDA margin, adjusted pro forma net income and adjusted pro forma earnings per fully exchanged and diluted share (collectively the "non-GAAP financial measures").

### Restaurant-Level Profit

Restaurant-level profit, formerly referred to as Shack-level operating profit, is defined as Shack sales less Shack-level operating expenses which include Food and paper costs, Labor and related expenses, Other operating expenses and Occupancy and related expenses.

#### ***How This Measure Is Useful***

When used in conjunction with GAAP financial measures, Restaurant-level profit and Restaurant-level profit margin are supplemental measures of operating performance that we believe are useful measures to evaluate the performance and profitability of our Shacks. Additionally, Restaurant-level profit and Restaurant-level profit margin are key metrics used internally by our management to develop internal budgets and forecasts, as well as assess the performance of our Shacks relative to budget and against prior periods. It is also used to evaluate team member compensation as it serves as a metric in certain of our performance-based team member bonus arrangements. We believe the presentation of Restaurant-level profit and Restaurant-level profit margin provides investors with a supplemental view of our operating performance that can provide meaningful insights to the underlying operating performance of our Shacks, as these measures depict the operating results that are directly impacted by our Shacks and exclude items that may not be indicative of, or are unrelated to, the ongoing operations of our Shacks. It may also assist investors to evaluate our performance relative to peers of various sizes and maturities and provides greater transparency with respect to how our management evaluates our business, as well as our financial and operational decision-making.

#### ***Limitations of the Usefulness of this Measure***

Restaurant-level profit and Restaurant-level profit margin may differ from similarly titled measures used by other companies due to different methods of calculation. Presentation of Restaurant-level profit and Restaurant-level profit margin is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. Restaurant-level profit excludes certain costs, such as General and administrative expenses and Pre-opening costs, which are considered normal, recurring cash operating expenses and are essential to support the operation and development of our Shacks. Therefore, this measure may not provide a complete understanding of the operating results of our Company as a whole and Restaurant-level profit and Restaurant-level profit margin should be reviewed in conjunction with our GAAP financial results. A reconciliation of Restaurant-level profit to Income from operations, the most directly comparable GAAP financial measure, is as follows.

## EBITDA and Adjusted EBITDA

EBITDA is defined as Net income before Interest expense (net of interest income), Income tax expense and Depreciation and amortization expense. Adjusted EBITDA is defined as EBITDA (as defined above) excluding equity-based compensation expense, Impairment and loss on disposal of assets, amortization of cloud-based software implementation costs, as well as certain non-recurring items that we do not believe directly reflect our core operations and may not be indicative of our recurring business operations.

### How These Measures Are Useful

When used in conjunction with GAAP financial measures, EBITDA and adjusted EBITDA are supplemental measures of operating performance that we believe are useful measures to facilitate comparisons to historical performance and competitors' operating results. Adjusted EBITDA is a key metric used internally by our management to develop internal budgets and forecasts and also serves as a metric in our performance-based equity incentive programs and certain of our bonus arrangements. We believe presentation of EBITDA and adjusted EBITDA provides investors with a supplemental view of our operating performance that facilitates analysis and comparisons of our ongoing business operations because they exclude items that may not be indicative of our ongoing operating performance.

### Limitations of the Usefulness of These Measures

EBITDA and adjusted EBITDA may differ from similarly titled measures used by other companies due to different methods of calculation. Presentation of EBITDA and adjusted EBITDA is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. EBITDA and adjusted EBITDA exclude certain normal recurring expenses. Therefore, these measures may not provide a complete understanding of our performance and should be reviewed in conjunction with our GAAP financial measures. A reconciliation of EBITDA and adjusted EBITDA to Net income, the most directly comparable GAAP measure, is as follows.

## Adjusted Pro Forma Net Income and Adjusted Pro Forma Earnings Per Fully Exchanged and Diluted Share

Adjusted pro forma net income represents Net income attributable to Shake Shack Inc. assuming the full exchange of all outstanding SSE Holdings, LLC membership interests ("LLC Interests") for shares of Class A common stock, adjusted for certain non-recurring items that we do not believe are directly related to our core operations and may not be indicative of our recurring business operations. Adjusted pro forma earnings per fully exchanged and diluted share is calculated by dividing adjusted pro forma net income by the weighted average shares of Class A common stock outstanding, assuming the full exchange of all outstanding LLC Interests, after giving effect to the dilutive effect of outstanding equity-based awards.

### How These Measures Are Useful

When used in conjunction with GAAP financial measures, adjusted pro forma net income and adjusted pro forma earnings per fully exchanged and diluted share are supplemental measures of operating performance that we believe are useful measures to evaluate our performance period over period and relative to our competitors. By assuming the full exchange of all outstanding LLC Interests, we believe these measures facilitate comparisons with other companies that have different organizational and tax structures, as well as comparisons period over period because it eliminates the effect of any changes in Net income attributable to Shake Shack Inc. driven by increases in our ownership of SSE Holdings, which are unrelated to our operating performance, and excludes items that are non-recurring or may not be indicative of our ongoing operating performance.

### Limitations of the Usefulness of These Measures

Adjusted pro forma net income and adjusted pro forma earnings per fully exchanged and diluted share may differ from similarly titled measures used by other companies due to different methods of calculation. Presentation of adjusted pro forma net income and adjusted pro forma earnings per fully exchanged and diluted share should not be considered alternatives to Net income and earnings per share, as determined under GAAP. While these measures are useful in evaluating our performance, they do not account for the earnings attributable to the non-controlling interest holders and therefore do not provide a complete understanding of the Net income attributable to Shake Shack Inc. Adjusted pro forma net income and adjusted pro forma earnings per fully exchanged and diluted share should be evaluated in conjunction with our GAAP financial results. A

reconciliation of adjusted pro forma net income to Net income attributable to Shake Shack Inc., the most directly comparable GAAP measure, and the computation of adjusted pro forma earnings per fully exchanged and diluted share are set forth below.

## LIQUIDITY AND CAPITAL RESOURCES

### Sources and Uses of Cash

Our primary sources of liquidity are cash from operations, cash and cash equivalents on hand, short-term investments and availability under our Revolving Credit Facility. As of June 26, 2024, we maintained a Cash and cash equivalents balance of \$301.8 million and a short-term investments balance of \$2.6 million in Marketable securities. In March 2021, we issued 0% Convertible Senior Notes (“Convertible Notes”), and received \$243.8 million of proceeds, net of discounts. Refer to Note 6, Debt, in the accompanying Condensed Consolidated Financial Statements, for additional information.

On June 6, 2024, we filed a Registration Statement on Form S-3 with the SEC which permits us to issue a combination of securities described in the prospectus in one or more offerings from time to time. To date, we have not experienced difficulty accessing the capital markets; however, future volatility in the capital markets may affect our ability to access those markets or increase the costs associated with issuing debt or equity instruments.

Our primary requirements for liquidity are to fund our working capital needs, operating and finance lease obligations, capital expenditures and general corporate needs. Our requirements for working capital are generally not significant because our guests pay for their food and beverage purchases in cash or on debit or credit cards at the time of the sale and we are able to sell many of our inventory items before payment is due to the supplier of such items. Our ongoing capital expenditures are principally related to opening new Shacks, existing Shack capital investments (both for remodels and maintenance), as well as investments in our corporate technology infrastructure to support our home office, Shake Shack locations, and digital strategy.

In addition, we are obligated to make payments to certain members of SSE Holdings under the Tax Receivable Agreement. As of June 26, 2024, such obligations totaled \$246.9 million. Amounts payable under the Tax Receivable Agreement are contingent upon, among other things, (i) generation of future taxable income over the term of the Tax Receivable Agreement and (ii) future changes in tax laws. If we do not generate sufficient taxable income in the aggregate over the term of the Tax Receivable Agreement to utilize the tax benefits, then we would not be required to make the related payments under the Tax Receivable Agreement. Although the amount of any payments that must be made under the Tax Receivable Agreement may be significant, the timing of these payments will vary and will generally be limited to one payment per member per year. The amount of such payments are also limited to the extent we utilize the related deferred tax assets. The payments that we are required to make will generally reduce the amount of overall cash flow that might have otherwise been available to us or to SSE Holdings, but we expect the cash tax savings we will realize from the utilization of the related deferred tax assets to fund the required payments.

We believe our existing cash and cash equivalents balances and cash from operations will be sufficient to fund our operating and finance lease obligations, capital expenditures, Tax Receivable Agreement obligations and working capital needs for at least the next 12 months.

### Summary of Cash Flows

The following table presents a summary of our cash flows from operating, investing and financing activities.

	Twenty-Six Weeks Ended	
	June 26 2024	June 28 2023
<i>(in thousands)</i>		
Net cash provided by operating activities	\$ 84,210	\$ 62,191
Net cash provided by (used in) investing activities	428	(85,415)
Net cash used in financing activities	(7,452)	(3,596)
Effect of exchange rate changes on cash and cash equivalents	(1)	(4)
Net increase (decrease) in Cash and cash equivalents	77,185	(26,824)
Cash and cash equivalents at beginning of period	224,653	230,521
Cash and cash equivalents at end of period	\$ 301,838	\$ 203,697

### **Operating Activities**

For the twenty-six weeks ended June 26, 2024, net cash provided by operating activities was \$84.2 million compared to \$62.2 million for the twenty-six weeks ended June 28, 2023, an increase of \$22.0 million. The increase was primarily driven by a \$17.3 million improvement in net results after excluding non-cash charges as well as changes in working capital of \$4.7 million. The changes in working capital included an increase in liabilities related to marketing promotions and a change in the timing and payments related to accruals, partially offset by an increase in payments on lease liabilities due to the opening of 41 new Company-operated Shacks between June 28, 2023 and June 26, 2024 and higher base rent.

### **Investing Activities**

For the twenty-six weeks ended June 26, 2024, net cash provided by investing activities was \$0.4 million compared to net cash used in investing activities of \$85.4 million for the twenty-six weeks ended June 28, 2023, an increase of \$85.8 million. The increase was primarily due to a net increase in marketable securities activity as a result of maturities of held-to-maturity marketable securities in the current year of \$66.4 million, partially offset by the purchase of held-to-maturity marketable securities of \$91.4 million and the sale of equity securities of \$81.5 million in the prior year.

### **Financing Activities**

For the twenty-six weeks ended June 26, 2024, net cash used in financing activities was \$7.5 million compared to \$3.6 million for the twenty-six weeks ended June 28, 2023, an increase of \$3.9 million. This increase was primarily due to an increase in withholding taxes related to net settled equity awards.

## **Convertible Notes**

In March 2021, we issued \$250.0 million aggregate principal amount of 0% Convertible Senior Notes due 2028 in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. The Convertible Notes will mature on March 1, 2028, unless earlier converted, redeemed or repurchased in certain circumstances. Upon conversion, we pay or deliver, as the case may be, cash, shares of Class A common stock or a combination of cash and shares of Class A common stock, at our election. Refer to Note 6, Debt, in the accompanying Condensed Consolidated Financial Statements, for additional information.

## **Revolving Credit Facility**

In August 2019, we entered into a Revolving Credit Facility, which matures in March 2026 and permits borrowings up to \$50.0 million, with the ability to increase available borrowings up to an additional \$100.0 million, subject to satisfaction of certain conditions. The Revolving Credit Facility also permits the issuance of letters of credit upon our request of up to \$15.0 million.

In June 2023, the Company entered into the fourth amendment to the Revolving Credit Facility ("Fourth Amendment"), which, among other things, modified the benchmark interest rate to either: (i) the base rate plus applicable margin ranging from 0.0% to 1.5% or (ii) the Secured Overnight Financing Rate ("SOFR") plus applicable margin ranging from 1.0% to 2.5%, in each case depending on the net lease adjusted leverage ratio. As of June 26, 2024 and December 27, 2023, no amounts were outstanding under the Revolving Credit Facility.

The obligations under the Revolving Credit Facility are secured by a first-priority security interest in substantially all of the assets of SSE Holdings and the guarantors. The obligations under the Revolving Credit Facility are guaranteed by each of SSE Holdings' direct and indirect subsidiaries, with certain exceptions.

The Revolving Credit Facility requires us to comply with maximum net lease adjusted leverage and minimum fixed charge coverage ratios, as well as other customary affirmative and negative covenants. As of June 26, 2024, we were in compliance with all covenants.

## **Contractual Obligations**

Material contractual obligations arising in the normal course of business primarily consist of operating and finance lease obligations, long-term debt, liabilities under the Tax Receivable Agreement and purchase obligations. The timing and nature of these commitments are expected to have an impact on our liquidity and capital requirements in future periods. Refer to Note 6, Debt and Note 7, Leases, in the accompanying Condensed Consolidated Financial Statements included in Part I, Item 1 for additional information relating to our long-term debt and operating and financing leases.

Liabilities under the Tax Receivable Agreement include amounts to be paid to the non-controlling interest holders, assuming we will have sufficient taxable income over the term of the Tax Receivable Agreement to utilize the related tax benefits. Refer to Note 10, Income Taxes, in the accompanying Condensed Consolidated Financial Statements included in Part I, Item 1, for additional information relating to our Tax Receivable Agreement and related liabilities.

Purchase obligations include all legally binding contracts, including commitments for the purchase, construction or remodeling of real estate and facilities, firm minimum commitments for inventory purchases, equipment purchases, marketing-related contracts, software acquisition/license commitments and service contracts. The majority of our purchase obligations are due within the next 12 months.

## CRITICAL ACCOUNTING POLICIES AND ESTIMATES

---

Our discussion and analysis of our consolidated financial condition and results of operations is based upon the accompanying Condensed Consolidated Financial Statements and notes thereto, which have been prepared in accordance with GAAP. The preparation of the Condensed Consolidated Financial Statements requires us to make estimates, judgments and assumptions, which we believe to be reasonable, based on the information available. These estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. Variances in the estimates or assumptions used to actual experience could yield materially different accounting results. On an ongoing basis, we evaluate the continued appropriateness of our accounting policies and resulting estimates to make adjustments we consider appropriate under the facts and circumstances. There have been no significant changes to our critical accounting policies as disclosed in our Annual Report on Form 10-K for the fiscal year ended December 27, 2023.

### Recently Issued Accounting Pronouncements

Refer to Note 2, Summary of Significant Accounting Policies under Part I, Item 1 of this Form 10-Q.

## Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes to our exposure to market risks as described in Part II, Item 7A of our Annual Report on Form 10-K for the fiscal year ended December 27, 2023.

## Item 4. Controls and Procedures.

### DISCLOSURE CONTROLS AND PROCEDURES

---

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Based upon the evaluation of our disclosure controls and procedures as of June 26, 2024, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective due to the existence of the material weakness in our internal control over financial reporting identified in fiscal 2023, as described below.

## PREVIOUSLY REPORTED MATERIAL WEAKNESS

As previously disclosed in Item 9A. “Controls and Procedures” on Form 10-K for the year ended December 27, 2023, management identified a material weakness in our internal control over financial reporting related to the calculation of state deferred taxes and the related income tax expense (benefit). Specifically, the internal controls in place with respect to the calculation of state deferred taxes and the related income tax expense (benefit) were not designed appropriately. The material weakness existed as of December 27, 2023 and prior periods.

Management identified and reported this weakness to both our audit committee and Ernst & Young LLP, our independent registered public accounting firm, immediately upon identification. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system’s objectives will be met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues have been detected. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under potential future conditions, regardless of how remote.

## REMEDIATION STATUS OF MATERIAL WEAKNESS

We are designing and implementing measures to remediate the material weakness noted above and to enhance our internal control over financial reporting. As previously disclosed, we have established a Steering Committee with representatives from key departments within our Finance organization as well as representatives from IT and Securities Counsel and we have continued our remediation activities. We have hired a Head of Tax with over 20 years of tax leadership experience including working with Up-C structures, enhancing controls, processes, and tax technology. Additionally, we are currently supplementing our tax resources through the use of third-party tax consultants and intend to utilize the third-party tax consultants, under the supervision of management, throughout the remediation process. In addition, we are in the process of developing enhanced management review control procedures over the calculation of state deferred taxes and the related income tax expense (benefit). The new Head of Tax has completed an assessment of the tax function and has developed a strategy to work with third-party tax consultants to enhance our tax technology and transformation which we believe will strengthen our controls.

The actions that we are taking are subject to ongoing senior management review, as well as oversight of the audit committee of our board of directors. The material weakness cannot be considered remediated until the applicable remedial controls operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. We will continue to monitor the design and effectiveness of these and other processes, procedures and controls and make any further changes management deems appropriate.

## CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

Except as described above, there were no changes to our internal control over financial reporting that occurred during the quarter ended June 26, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
